flexeserve Zone®

The RPI & Nuttall flexeserve Zone® is transforming the hot food-to-go display market and changing customer expectations for the better. The multi-award-winning, heated display unit offers a range of hot self-serve food-to-go merchandising solutions in one cabinet. With 48% of food-to-go shoppers making unplanned purchases, the flexeserve Zone® is the perfect solution! The open grab & go design facilitates impulse purchases for your enticing hot food-to-go products.

The pioneering flexeserve Zone® allows operators to tailor their hot food offer according to consumer demand, reducing product waste, with the ability to turn zones off during off-peak hours or utilize the cabinet's greater merchandising capacity. flexeserve Zone® keeps your hot food tasting and looking its best for longer!

Available in 2, 3, & 4 tier formats!

Minimizes waste due to extended display times!

Increases food sales due to maximized product quality and shelf life!

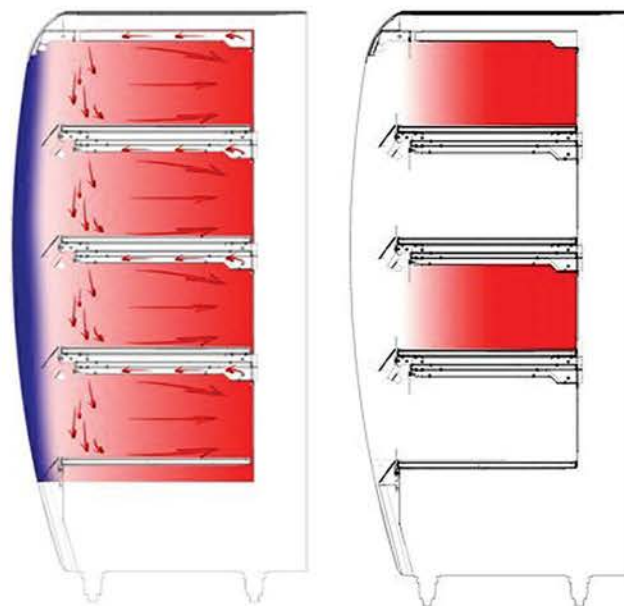

Reduces energy use due to flexible zone efficiencies!

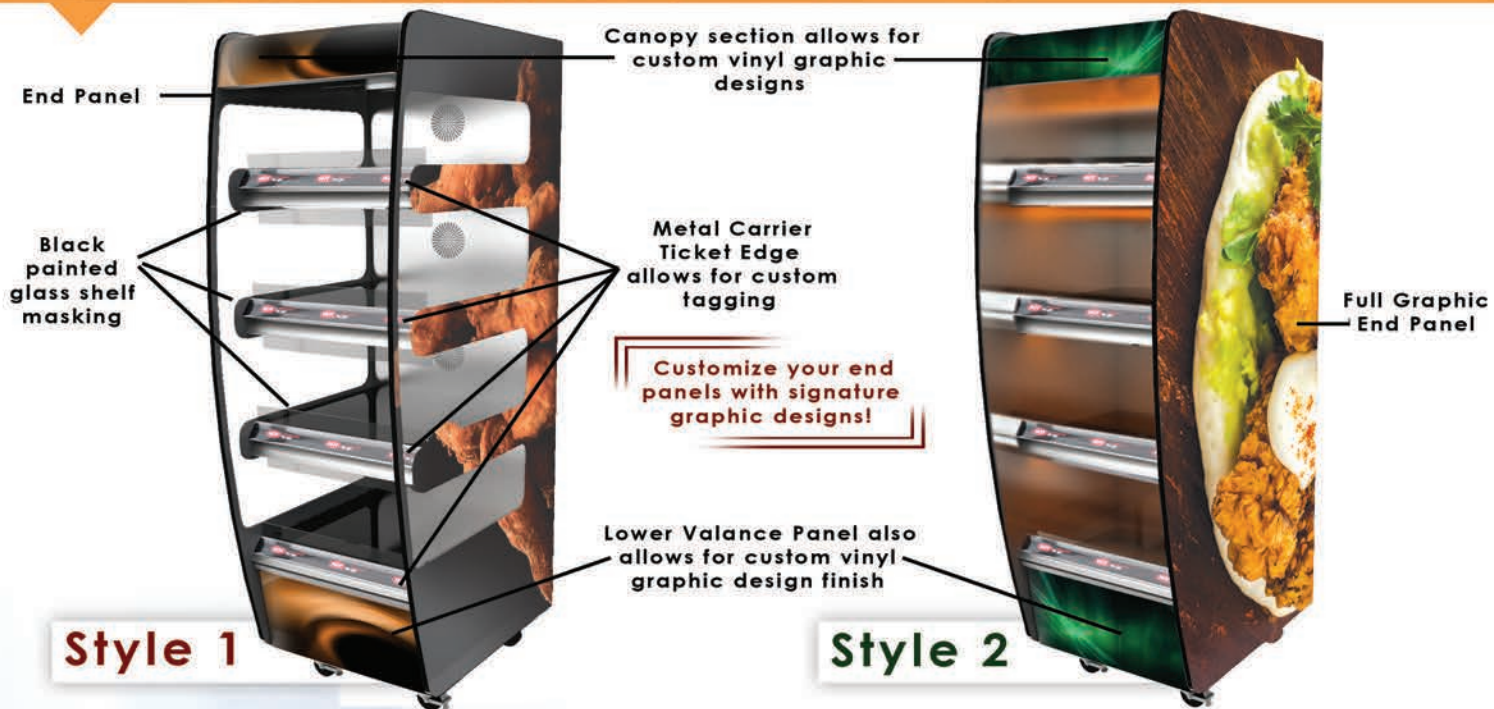

How does it work?

- Patented air handling system enables stable constant air temperature throughout the Zone.
- The high velocity air curtain ensures that the heated air is maintained at the correct temperature and protects each Zone from the exterior environment.
- Each Zone is thermally independent , enabling isolation allowing Zones switched on & off to suit trading patterns.

Nuttall Flexeserve Zone®	Resulting in ...
Controlled Environment	High product quality and stable temperature
Tight Air Curtain	Energy saving
Independent heated Zones	Greater economy of use
Energy efficient Controls	Variable savings per year
Flat shelf display	Safely display liquid products
Greater area of merchandising capacity	28 % increase in merchandising capacity *

FLEX SERIES

The **ultimate design statement** by offering a clip-on front and side panel system, giving that added sizzle to your display cases, without adding the additional costs of including a fabricated counter or die wall!

HOW FLEX SERIES WORKS

SPECIALIZED "Z-CLIPS"

Attach to the units framing, fastening your choice of paneling directly to the unit!

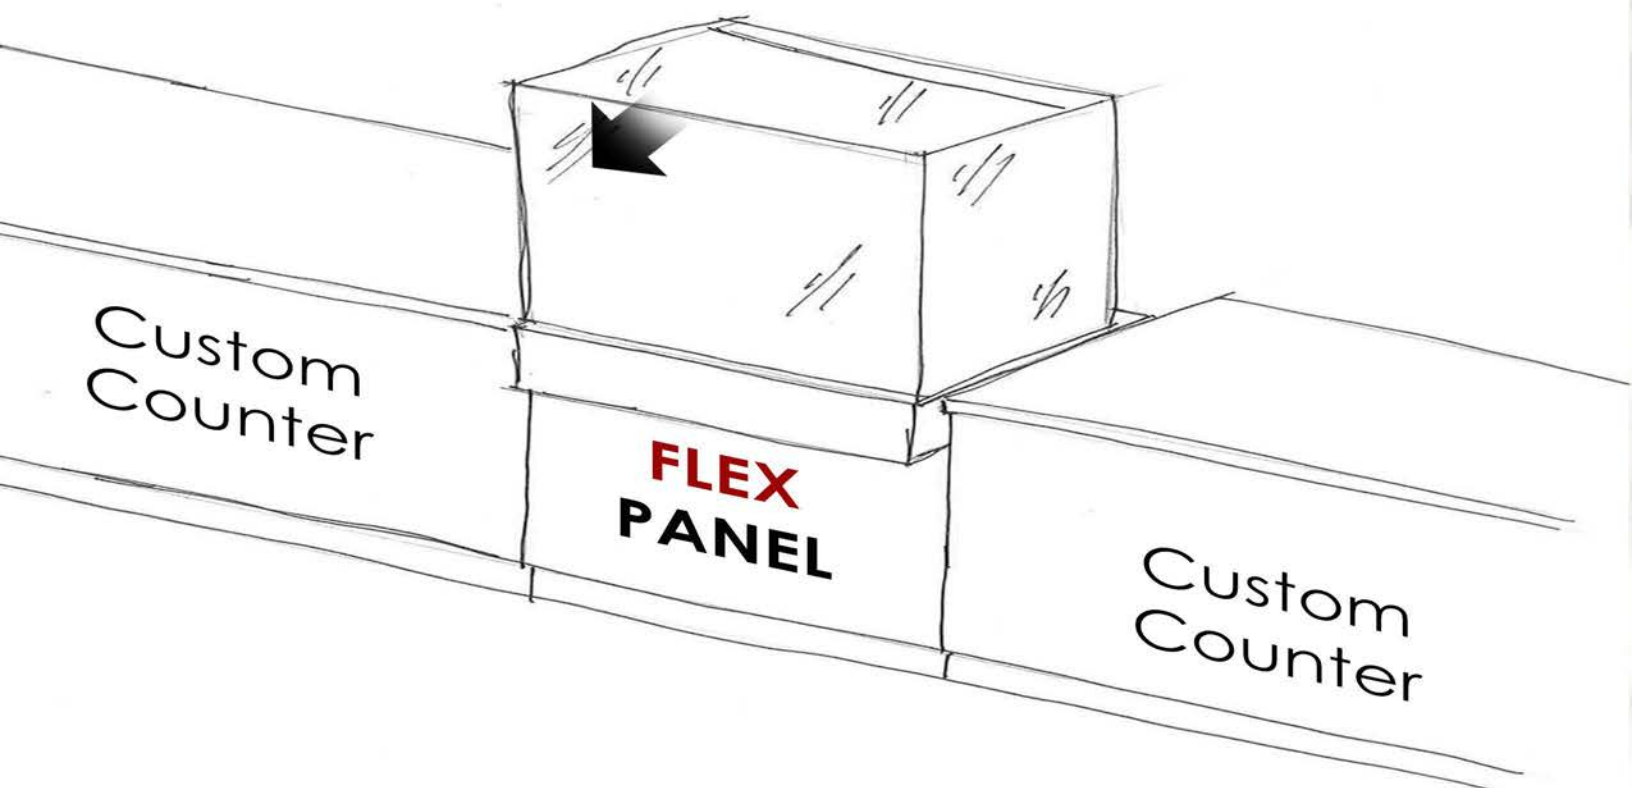

FRONT & SIDE CLIPS ONLY

RPI ADVANTAGE

VALUE ENGINEERED PACKAGE!

When designing your counters, in lieu of special cutting of tops and fabricating a die wall or custom cabinetry, simply leave an opening in your counter, slide in a Vienna case and apply the economical matching **FLEX PANEL!**

Vienna series

GRAB N GO

We added more options to our most popular Vienna grab and go units! Now available in black matte Powder Coat exterior with a finished compressor housing displaying the unit as though it was floating within the counter design!

INTRODUCING Flantastic

The Flantastic line is designed to maximize product freshness! Unit offers a uniquely designed coil with variable speed fans, which enables you to achieve very high natural humidity levels for preservation of product. This in-turn provides longer product shelf life!

Vienna PRO Series

The Vienna PRO Series offers modular formats in refrigerated, non-refrigerated and hot display in multiple arrays of configurations that can be tied together, offering a "continuous display case" look with customized appeal! Units available in exterior #4 satin stainless, #8 mirrored polished, black powder coat, or your choice of R.A.L color finish options!

RAL 9016 White	RAL 7047 Light Grey	RAL 1018 Yellow	RAL 2010 Orange	RAL 3000 Red	RAL 3004 Burgundy	RAL 5002 Dark Blue	RAL 0001500 Black	RAL 0003000 Carbon	RAL 0004000 Anthracite
RAL 0909040 Yellow	RAL 0958010 Cream	RAL 0959010 Light Yellow	RAL 1007005 Cement Grey	RAL 1009005 Ultra White	RAL 1308030 Light Green	RAL 1402020 Moss Green	RAL 1407020 Candy Green	RAL 1906025 Turquoise	RAL 2008020 Callipo

All of this at a tremendous **value-engineered price!**

HOT/COLD COMBO DISPLAY

The Hot/Cold Combo offers versatility with 4 functions in a small footprint. Angled presentation is offered for heated and refrigerated product with top isolated assisted service!

Continuous LED lighting for natural colour rendition

Long-wave, infrared warming bridge

High transparency for a perfect view of the food on display

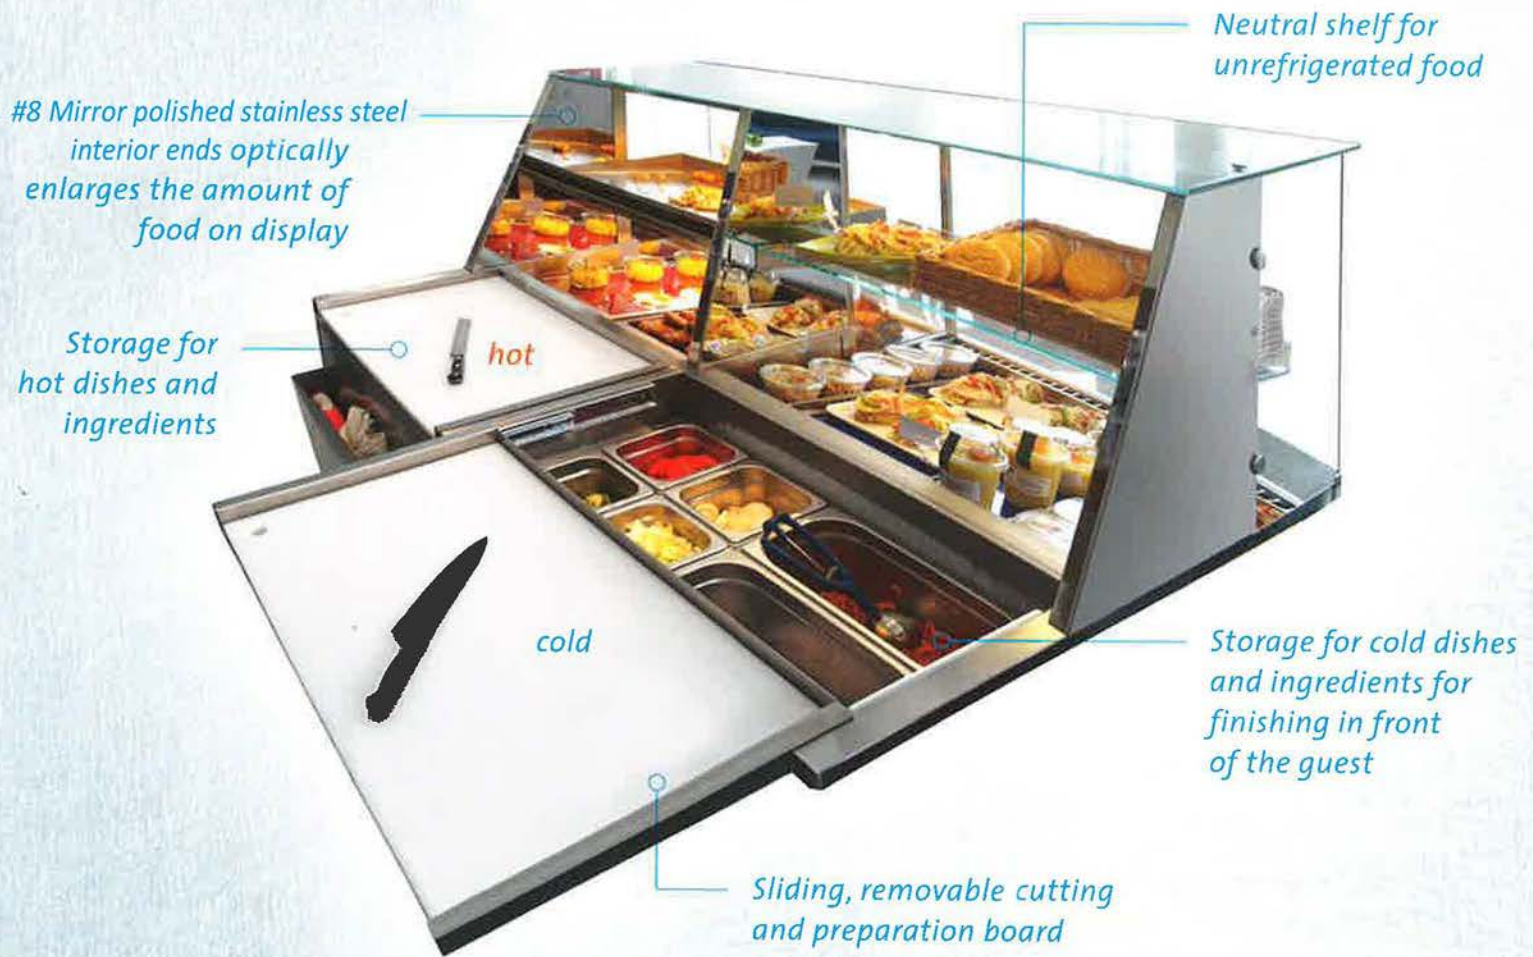

Easy Change: liftable glass front for self- or assisted service

Main hotplate

SPECIAL FEATURES

An all-day concept – simple, fast, flexible

Constantly having everything ready and close at hand represents an important precondition for efficient preparation in front of the guest. Especially when the display is to be changed frequently between breakfast and dinner. However, the case's storage system ensures that none of these issues is a problem.

Vienna Snackee

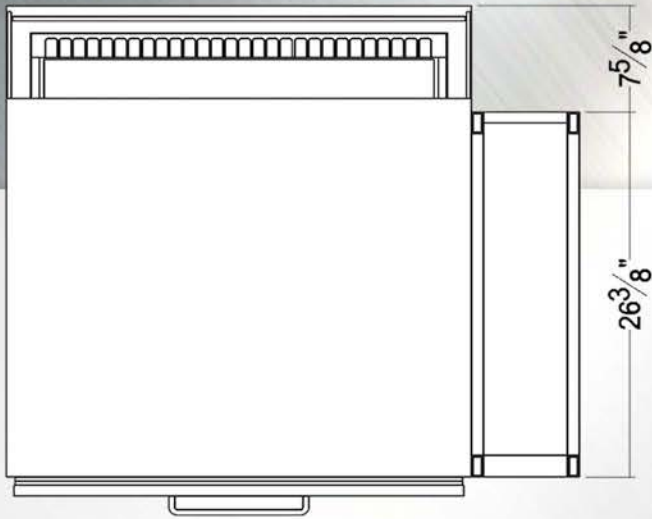

The Vienna Snackee Series Offers flexibility within a small foot print. Designed as above counter top units, with front flip-up access doors, these unique displays are available in **cool**, **heated**, and **ambient** applications, and are the perfect display case choice for impulse merchandising!

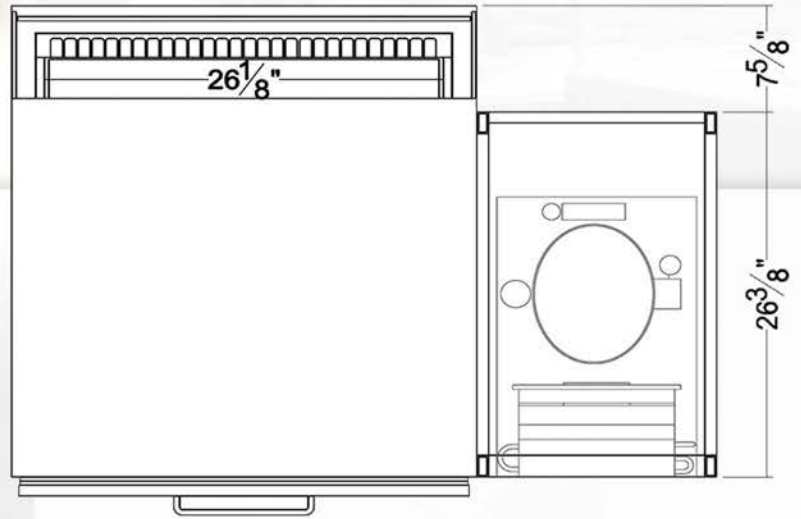

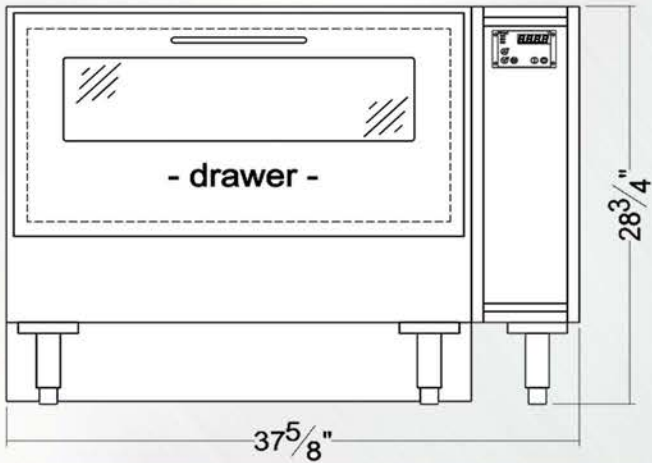

SHOWN AT 35" HEIGHT / AVAILABLE IN 27" HEIGHT!

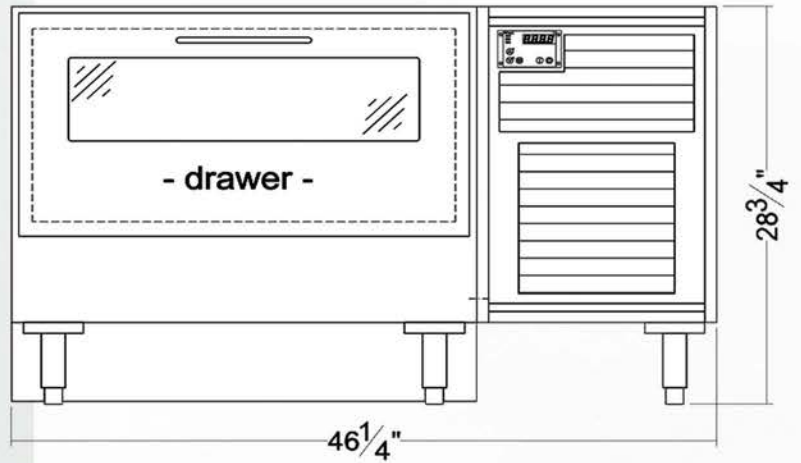

PULL-OUT GRAB & GO SERIES

REMOTE-REFRIG.

SELF-CONTAINED

Counter Top

Vienna

The Vienna counter top displays offer your choice of **chilled** or **heated** applications. Units can be decoratively displayed built into a counter or die-wall, and are designed for the storage of beverages or pre-packaged goods!

CHILLED SERVICE

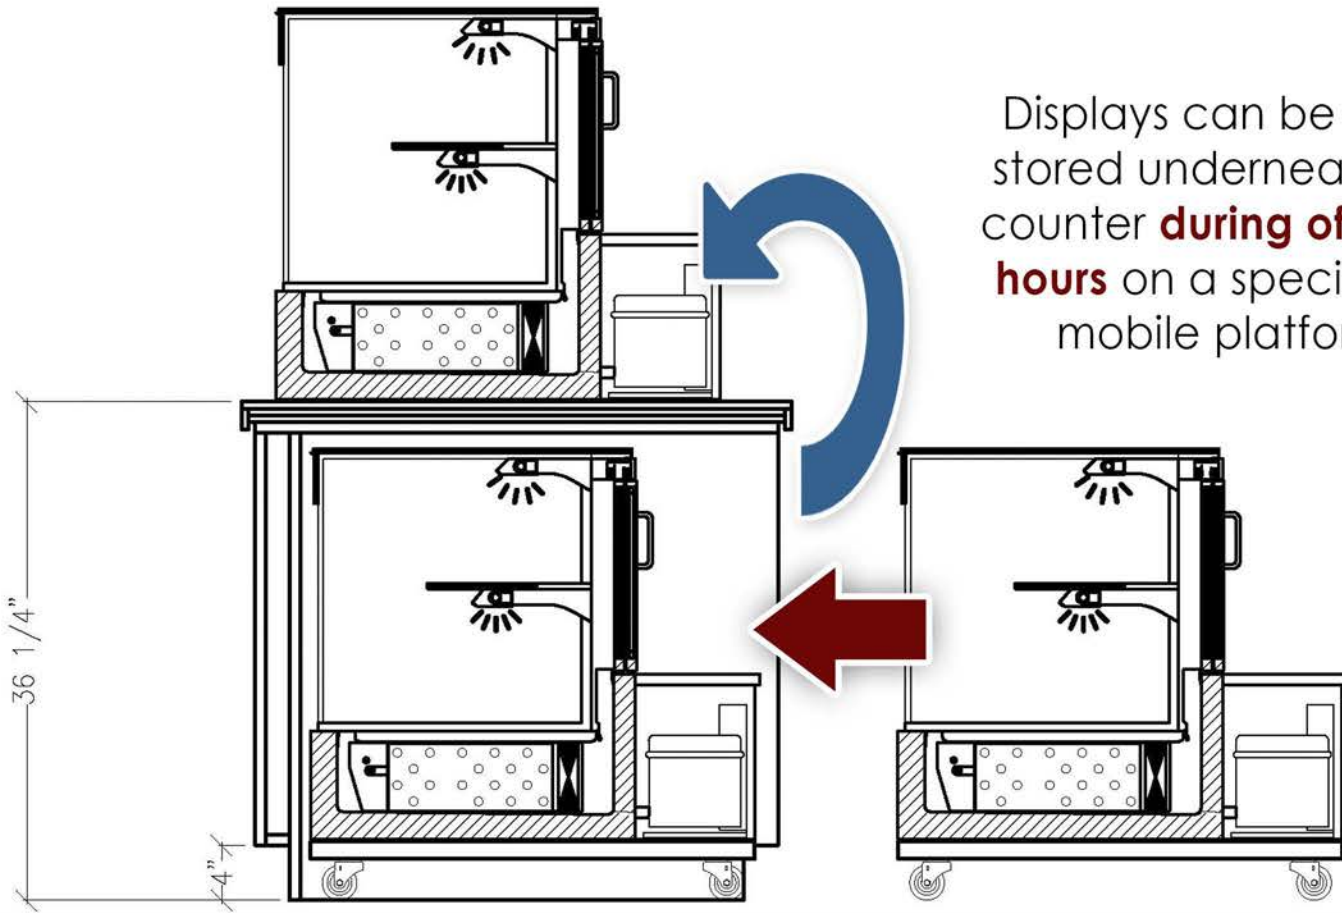

CHILLED GRAB & GO

HEATED SERVICE

Extended

D designs

Displays can be easily stored underneath the counter **during off peak hours** on a specialized mobile platform.

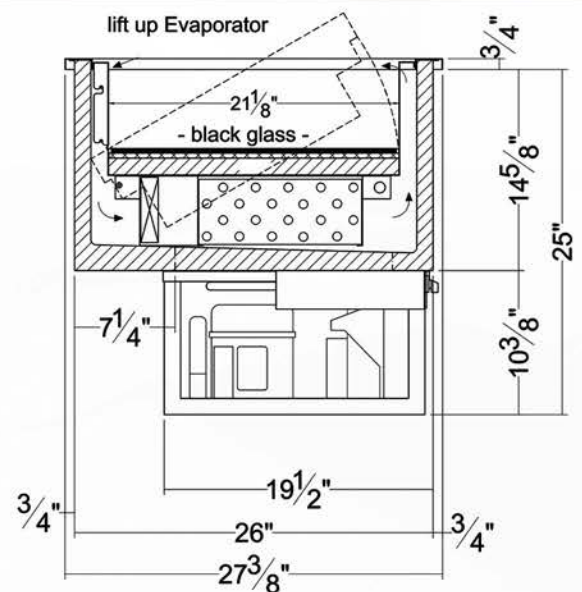

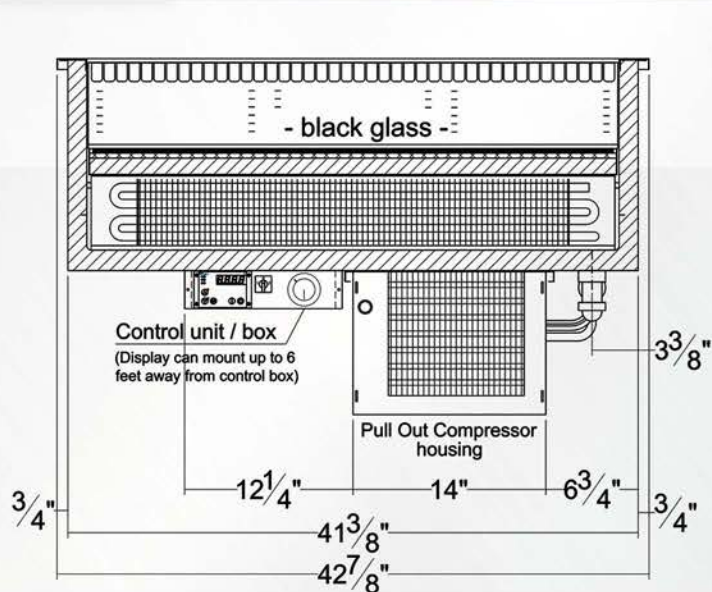

UNDER COUNTER STORAGE

Vienna

A standard, with a **twist!** The Vienna air pan **switch** is pure drop-in style with option of a **"flip-of-the-switch"** to change the unit from refrigerated air over pan to a heated unit. Dual controls are easily mounted at the rear of the unit.

AVAILABLE SIZES: 2, 3, 4 PAN

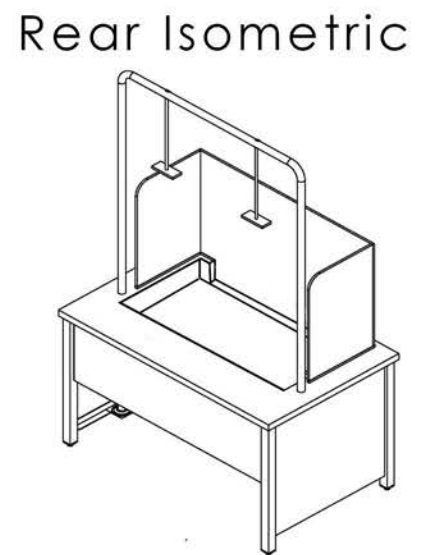

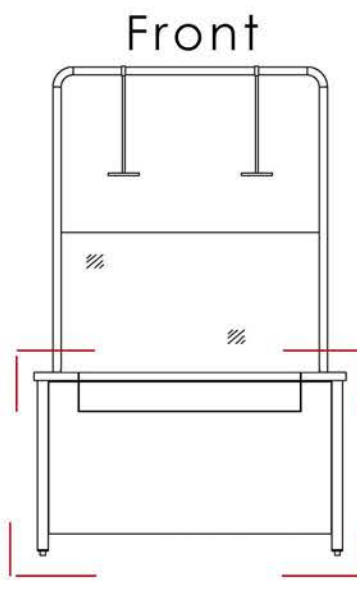

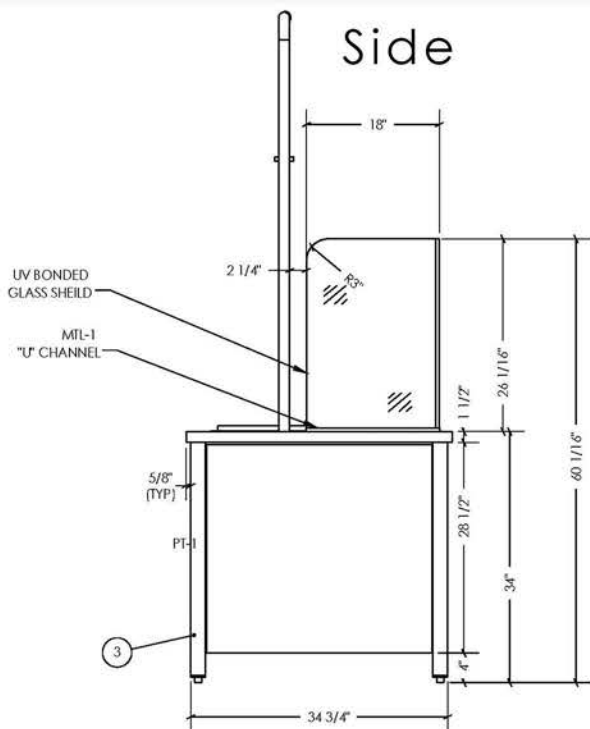

! Heat operation will require heated sneeze guard

INNOVATION, with INSPIRATION!

A refrigerated air over design integrated within the counter build so they look as one. This gives the ultimate in one piece design!

AVAILABLE SIZES: 4', 5', 6', 8'

BRAVO *SLANTED*

*PERFECT CHOICE FOR **PRE-PACKAGED GOODS!***

A new slant on the grab and go experience! The new Bravo Slant brings a new look to the self-select Service Market. This new grab and go case has a reclined vision to what was either totally vertical or totally horizontal refrigerated displays in the past. A two sided unit would make a great Island unit (remote compressor).

A single sided (self-contained) unit would work great as a front line case or up against a wall using RPI'S famous zero wall clearance!

AVAILABLE **SIZES: 4', 5', 6', 8', 10', 12'**

BEHIND THE DESIGN

(A)

(B)

(C)

(D)

Doors attach to arm, that tracks along an interior rail system (A), top and bottom mounted hinges allow for opening/closing (B), this combined system allows for the pull-out doors, to 'Pocket-in' during peak hours (C & D)

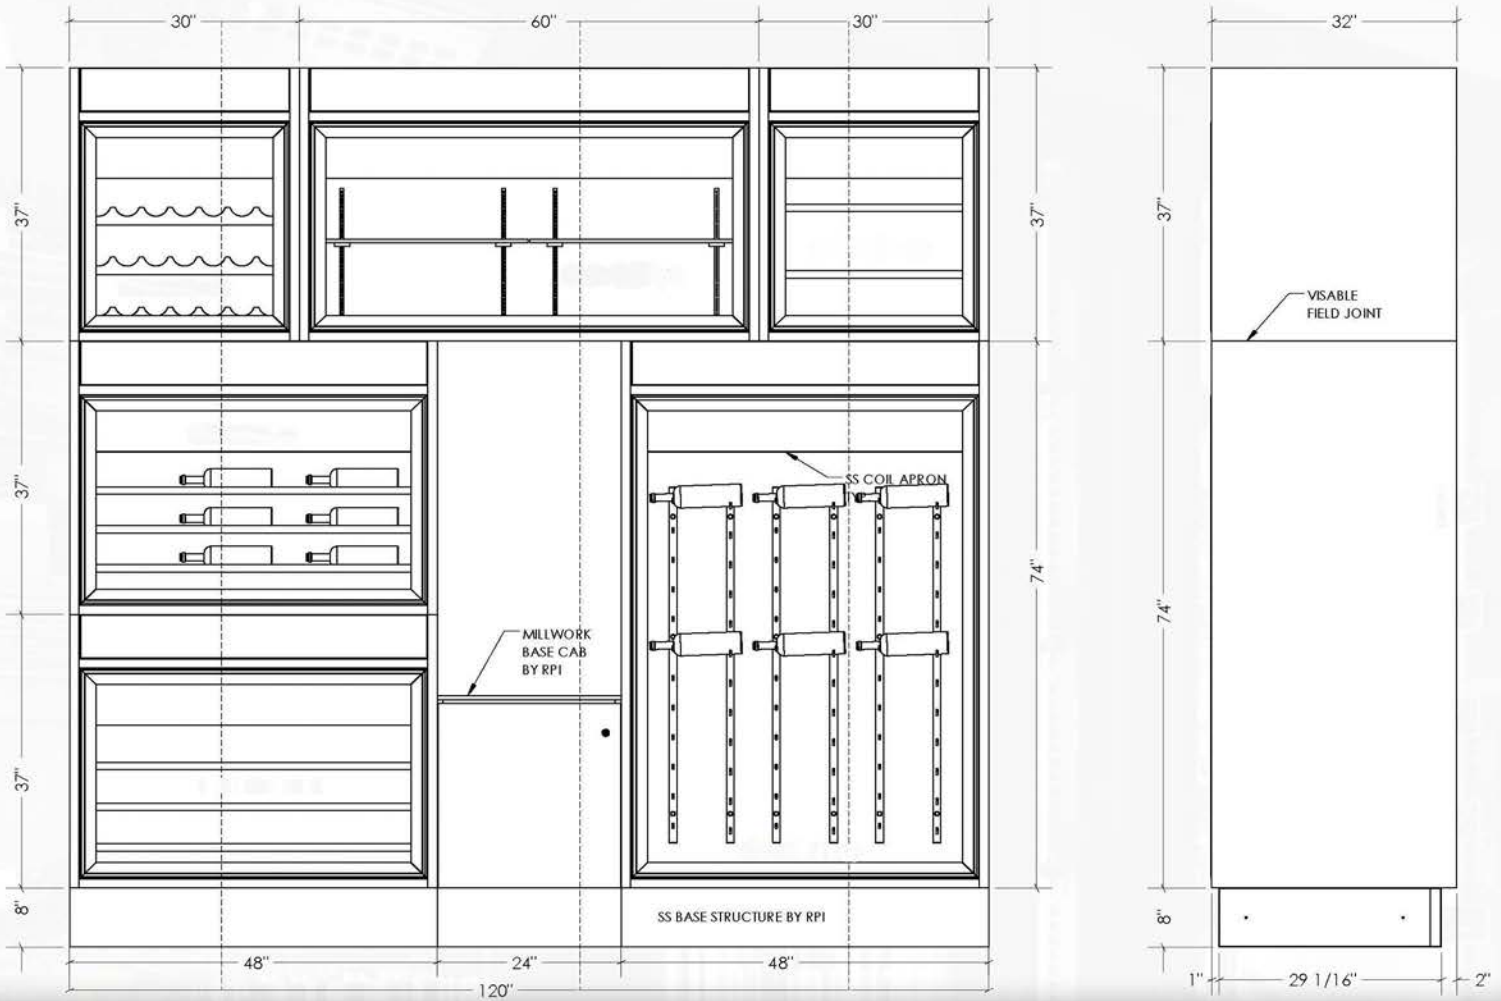

THE RPI ADVANTAGE

Modular Method!

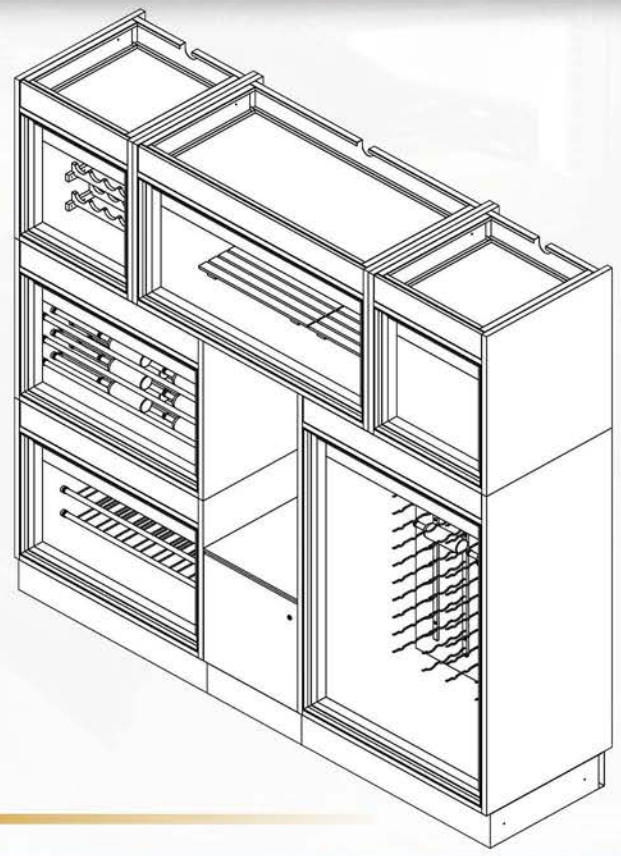

A modular standard in design allows the ability to offer a value engineered model, in either a full size, or half size unit that can be refrigerated for isolated compartments for wine, champagne, micro beers, cheese or smoked meats . Units can be stacked with endless choices for exterior finishes giving you the one of a kind look at a very smart valued price!

Meat, Cheese, Wine & Beer Display Modules!

**MIX & MATCH FOR THE
ULTIMATE DESIGN
OPPORTUNITY!**

GENEVA II SERIES

The Geneva II series is the next level of continual display, and is offered in a wide variety of straight and curved modules. Units can be used to maintain the quality of prepared foods, deli, meat, cheeses and salads. Add the **FLEX SERIES** paneling for enhanced and enticing display opportunities!
