

Restock. Refresh. Repeat.
Food Service Tools for K-12

Providing Solutions for over 75 Years
Every Ware. Every Day.

PROVIDING TOOLS THAT ARE COOL FOR SCHOOL

TableCraft® is always studying the 3R's for our K-12 customers: Restock, Refresh and Repeat! We'll continue to develop products and provide solutions to serve and supply your employees and students.

From prepping and serving food to fostering best practices, improving efficiencies, reducing waste, and promoting cleanliness and sanitation within your establishment, we have the tools to inspire and empower.

TableCraft® Product Company is proud to be an affiliated member of the following organizations: Member of the North American Association of Food Equipment Manufacturers (NAFEM) Member of the National Restaurant Association (NRA)

Cafeteria Dining Solutions:

A whole different meaning to "dine & dash!"

Compliance and convenience are equally important factors in the preparation and serving buffet-style dining or grab-n-go. TableCraft continues to revisit the versatility of our current product offerings as well as create new items to enhance the food service operator, employees, and student experience.

From prepping and serving food to fostering best practices, improving efficiencies, reducing waste, and promoting cleanliness and sanitation within your school, we have the tools to inspire and empower.

Many of our products are manufactured or processed in our Willis, Texas location. All of our DuraCoat™ Coating, Cold and Hot Well Covers, Templates and Inserts, Action Stations, Modular Action Stations, Safety Shields and our New Portable Insulated Ice Wells are made to order and shipped directly from this facility (other items shown may ship from our Gurnee, IL location). Our experienced staff will work with you to create the best tools and experience for the operators in the industry.

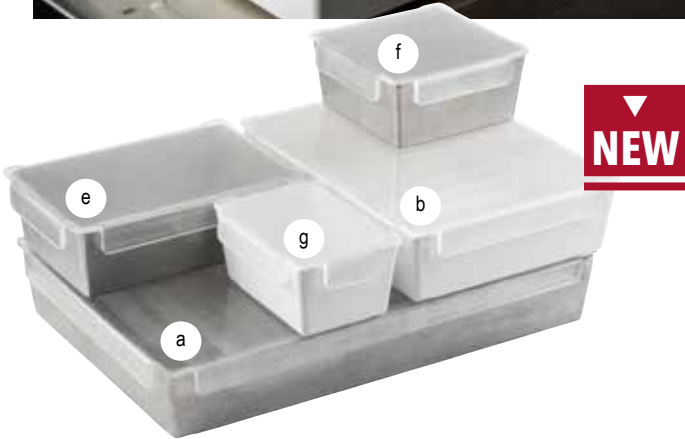

SIMPLE SOLUTIONS™ ACRYLIC COVERS

Keep your food covered and protected with these new translucent acrylic covers for our simple solution bowls. Eliminates needing to prep and place product in a storage container saving storage and serve time.

- Translucent acrylic construction
- Fits both 3" and 5" Simple Solutions™ Bowls (coated or uncoated)
- When cleaning your acrylic cover, do not use abrasive cloths or paper towels. To sanitize, use warm water mixed with sanitizing dish soap, Hydrogen Peroxide (3%-5% Concentration), or a bleach-water solution (2% Concentration of Bleach)

View a video on the benefits of our Simple Solutions™ Acrylic Covers!

**DURACOAT™
CAST COATINGS**
FOR COLD HOLDING ONLY
SEE PAGE 3 FOR DETAILS

16 colors to show your school spirit

We offer 16 colorful DuraCoat™ Cast Coating options plus natural cast aluminum. Mix and match serving pieces to create an eye catching presentation to enhance your brand image. See comprehensive catalog for full color assortment. Our DuraCoat™ Cast Coatings are: NSF® listed, dishwasher safe, safe to use with foods containing less than 8% alcohol, safe for cold food temperatures as low as -20°F, but are not intended for hot well or steam table use.

TableCraft provides a convenient and unique recoating program, so you can refinish your current templates for less than the cost of ordering new. Please contact your TableCraft sales rep for quotes and a recoating authorization (RCA) to refinish your cast aluminum serveware. Choose from 16 DuraCoat™ coatings or revert to natural aluminum finish.

A really cool way to display that's as simple as 1-2-3

1

DROP-IN TEMPLATES

Place templates on the NSF-7 ledge inside your cold well unit. Each template is equal to one well. Per example above, a four well unit will need four templates. These templates rest slightly above the well floor and are perforated for maximum air flow circulation around our food bowls.

Need help with your well configuration? Please contact your TableCraft sales representative.

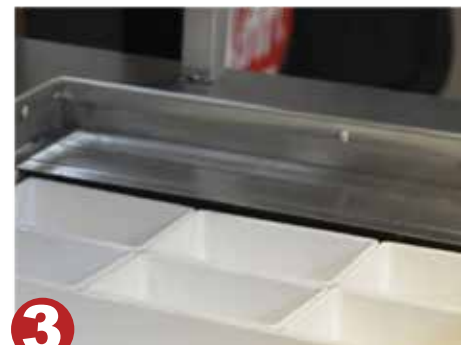

2

CAST ALUMINUM BOWLS

These vessels are the same size and capacity as traditional food pans or hotel pans. They are available in a variety of sizes: Full, Half Long, Half, Third, Sixth and Ninth size, so they are easy to configure inside your well. They should fit tightly together to retain cold serving temperatures. If there are gaps between bowls, slide all bowls in same direction then fill gaps with ac

See our comprehensive catalog for product selection and pricing.

3

SPACER BAR KITS

Kit includes one each bar: 0.25", 0.5", 0.75", 1", 1.25", 2" and 6.375". Use individually to fill gaps at the end of your well or use in any combination to replace vessels for smaller food service; or create an alternative serving surface. Bars are manufactured to rest on the NSF-7 ledge inside your well and block cold air from escaping to optimize the efficiency of your unit.

Spacer bars are available as individual pieces or as a kit. Please contact your TableCraft sales representative.

Simple Solutions

for grab-n-go

CHILLIN' IN THE COLD ZONE

By keeping a low profile, these templates allow your food products to stay cool and collected in your cold well serving units.

DROP-IN COLD WELL TEMPLATES

Quick and convenient should work both ways...for students and employees. Stock your cold well unit with ease, using TableCraft's Simple Solutions™ NSF®7 Drop-In templates. Our templates are designed to rest on the factory food pan ledge of a mechanically cooled cold food bar to cradle your food products within the proper cold zone.

- Templates are designed to offer your kitchen staff display versatility and promote best food safety practices
- Drop-in templates are available in regular 3" or deep 5" heights depending on your cooling stations well depth
- 18 standard templates available (see our complete catalog for details)
- Available in Brushed (BRA), Random Swirl (RSA) finishes or DuraCoat™ Colors (see page our catalog or contact your TableCraft sales rep for details)
- Drop-In templates are manufactured and shipped from Willis, Texas

Just add ice...

Our wells are constructed to fill and chill. Start with ice, then build to fit your needs. These short-term cold serving solutions will bring the cool to any indoor or outdoor buffet or catering event.

Add-in Simple Solutions™ Drop-in Template(s). Wells can accommodate either a 3" or 5" drop-in template(s).

Note: Make sure ice level does not interfere with template resting on ledges inside well.

We offer a variety of Cast Aluminum Bowls. See opposite page for configuration options.

PORTABLE INSULATED ICE WELLS (with or without Lids)

Portable Insulated Ice Wells are essential additions to any self-serve line; perfect for indoor and outdoor events, buffets, hotels, restaurants, and cafeterias. Also works well as a stand alone beverage or individually packed goods cooler; keeping your food, drinks, or desserts chilled and ready to serve.

Our wells are constructed of fabricated aluminum—sealed, double walled with 1" thick insulation material to promote up to 3 hours of cold display while reducing the appearance of condensation. Non-slip feet affixed to the underside of the unit keep it in place on your serving line. Drain hole, located on the back, allows for easy emptying and clean up.

- Available in Single and Double Wells (with or without Lid) in Brushed (BRA) finish and Translucent Clear (TCL), Black (TBK) and Copper (TCP) coatings
- Custom options also available. To ensure a proper fit, provide dimensions and requirements to your TableCraft sales rep
- For Cold Serving Only, Keeps food chilled up to 3 hours
- Add ice to the well. If using drop-in templates, fill ice up to the bottom of the template. Well will accommodate (1) drop-in template for single and up to (2) drop-in templates for double well
- If using Simple Solutions Cast Aluminum serving vessels, pre-chill the bowls in the freezer for 8 hours before use to minimize temperature changes
- Hand wash well with dish soap and warm water

HOT WELL COVERS ALUMINUM & STAINLESS STEEL

Create a practical alternative solution to the buffet and self-serving stations by replacing hot well templates with covers. No drop-in templates means one continuous serving surface. Hot Well Covers save energy and reduces food waste by keeping foods at optimal temperatures while elevating your presentation, literally, above the wells. Our aluminum and stainless steel options are designed to fit standard well sizes.

- Bring modern style and presentation to your hot food buffet
- Aluminum covers available in Wave or Contemporary patterns; options fit standard size wells
- Stainless steel can be made to order in six finish options [see catalog for more information]
- Perfect for restriction-free serving quantities, pre-packaged meals or single serve items
- Covers are manufactured and shipped from Willis, TX
- Custom sizes also available. To ensure a proper fit, well dimensions and drawings are required, contact your TableCraft rep for details

WHY IS **ANTIMICROBIAL™** IMPORTANT TO OUR UTENSILS AND YOU?

Antimicrobial inhibits the growth and reproduction of harmful bacteria, mold and mildew which can cause illness, odor, and staining. Antimicrobial substances are infused within vinyl handles to provide built-in antimicrobial protection against contamination from human contact and food residues. It is safe for food contact and will not wash or wear away from use or cleaning. It is proven to keep serving utensils cleaner between washings. This antimicrobial formula is USA Environmental Protection Agency (EPA) registered and EU Biocidal Products Regulation (BPR) certified.

Capacity is engraved on
